

JURISDICTIONAL WETLAND ENVIRONMENTAL SERVICES

Only Land Surveying firm in Nassau County to offer these valuable services

Save Time and Money

Delineate and accurately locate wetland boundary lines simultaneously. A significant time saver and cost efficient approach. We are trained and can provide both services.

The following services enhance our product and support

- Delineate and locate wetland boundaries simultaneously
- Meet with district staff
- Two Professional Land Surveyors
- GIS / CADD Mapping Department
- Approved wetlands mapped on a boundary survey, specific purpose map or aerial imagery of the subject property

We offer many required services needed for planning and design

- Assessments
- Determinations
- Delineation
- Survey Location and Mapping
